Bicycle Adventure

Students embark on daily bicycle adventures that lead to exploring the great outdoors (swimming, hiking, and canoeing), learning about local business (indoor recreation, restaurants, & stores), and developing life skills (teamwork, friendship, goal setting, and character). Students come ready to ride every day with their bicycle, helmet, and bike lock.

Moving and Thinking

Students engage in a fun, active learning curriculum, led by certified classroom teachers and college students, and featuring games and activities for learning math, physical education, arts, and sciences.
